Co-sponsored by the IEEE Computer Society Technical Committee on the Internet and the IEEE Communications Society, the International Performance, Computing, and Communications Conference (IPCCC) is the premiere IEEE conference presenting research in the performance of computer and communication systems. For the last two decades, IPCCC has been a research forum for academic, industrial, and government researchers.

We encourage submission of high-quality papers reporting original work in both theoretical and experimental research areas. Topics of interest include, but are not limited to, the following:

- *Network Security*
- *Power-aware Design*
- *Grid Computing*
- *Survivable Networks*
- *Performance Evaluation*
- *Embedded System*
- *Storage Systems*
- *Information Assurance*
- *Mobile and Ad-hoc Networking*
- *Mobile and Ubiquitous Systems*
- *Network Protocols and Performance*
- *High-Performance Computing*
- *Mobile and Networked Applications*
- *Internet Computing*
- *Web Server Performance*
- *Wireless Networks*

Submitted manuscripts must not exceed 20 double-spaced pages (including figures, refs., etc.) with 11-point font size. All papers must be submitted electronically in PDF format. Additional submission instructions are available on the conference web site.

**In addition, proposals are solicited for the following. Contact the program co-chairs, listed at left, for details.**

- *Half-day or full-day workshops on relevant topics.*
- *Panel sessions on topics of timely importance.*
- *Half-day or full-day tutorials on innovative topics related to the conference.*
